IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: Kenichiro Miyahara)	Docket Number:
)	Y04S022
Serial No.: 10/516,849)	
)	
Filed: January 7, 2005)	Group art Unit: 2874
)	
FOR: SUBSTRATE FOR FORMING THIN FILM)	
FORMATION, THIN FILM SUBSTRATE,)	
OPTICAL WAVEGUIDE, LIGHT)	
EMITTING DEVICE SUBSTRATE FOR)	
LIGHT EMITTING DEVICE MOUNTING)	

Office of Initial Patent Examination
 Filing receipt Corrections
 Facsimile number 571-273-9024

Attention: Ms. Paulette R. Kidwell

REQUEST FOR CORRECTION

Dear Ms. Kidwell:

Per our recent discussion over the telephone, I am writing to request corrections to be made to the filing receipt issued in connection with the above-stated patent application. Following is the list of correction information. Please also refer to the attached sheets for the correct information.

1. Applicant's address is miss-spelled. (It should be spelled "Kanagawa".)
2. There is one priority information missing. (JP2002-340619 11/25/2002)
3. The title should read as follows:
 "SUBSTRATE FOR FORMING THIN FILM FORMATION, THIN FILM SUBSTRATE, OPTICAL WAVEGUIDE, LIGHT EMITTING DEVICE SUBSTRATE FOR LIGHT EMITTING DEVICE MOUNTING."

Thank you for your assistance.

Respectfully submitted,

By 
 KONOMI TAKESHITA

FILING RECEIPT

0GD000000018013629

Date Mailed: 02/09/2006

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Applicant(s)

Kenichiro Miyahara, Kanagawa, JAPAN;

↳ It should be spelled "Kanagawa".

Power of Attorney: The patent practitioners associated with Customer Number 35910.

Title

Substrate for forming thin film, thin film substrate, optical waveguide, luminescent element and
substrate for carrying luminescent element
formation
light emitting device
light emitting device mounting.

Preliminary Class

385

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process simplifies the filing of patent applications on the same invention in member countries, but does not result in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier set forth in 37 CFR 5.15(b). The license is subject to revocation upon written notification. The license has been issued under 37 CFR 5.15(b).
